

The Key to
Digital Parking

JPass

The Key to Digital Parking

Parking
Technology **HUB**

YOUR KEY TO DIGITAL PARKING #JPASS

JPass helps create a more seamless urban mobility, addressing the challenges of urbanization that cities face today and reducing friction for citizens.

JPass provides users the key to navigate the urban maze, offering real-time occupancy information, search, navigation, pre-booking, digital visitor and monthly access and secure payment.

Harnessing the digital power of the most up-to-date mobile technologies, JPass allows both operators and users to forget about paper tickets. Thanks to JPass and Bluetooth technology embedded in HUB's peripherals, customers can now enter, securely pay and exit a parking facility using only their smartphones!

BENEFITS FOR END USERS

As a driver, you deserve a smooth and secure parking experience and HUB's user-friendly mobile solution can help you maneuver through the urban maze quickly and easily, without stress. Parking has never been so easy!

- **Park quicker:** JPass shows you the parking locations in the area you select, provides real time occupancy information, and guides you there directly. No more guessing about where you will find a parking spot and driving in circles to find an available garage!
- For **additional peace of mind**, you can book in advance using the pre-booking functionality, and be assured of finding a place to park.
- Easily **remotely extend** your parking session for more convenience!
- In-app payment functionality for a **secure and flawless payment**: avoid queuing to pay and do it conveniently and securely from your phone.
- Completely **paperless experience** with e-tickets safely stored in the app.
- **Intuitive activation and update** of parking subscriptions, as needed: your monthly or weekly subscription is just a tap away.
- **Never forget your passes:** they are all stored into your phone for maximum comfort.
- **Automatic e-receipts:** with JPass, they are received automatically into your email inbox, also making expenses easier.
- **24/7 access to parking history** and personal stats: keep an eye on your personal parking trends with the stats available in the analytics area of the app.

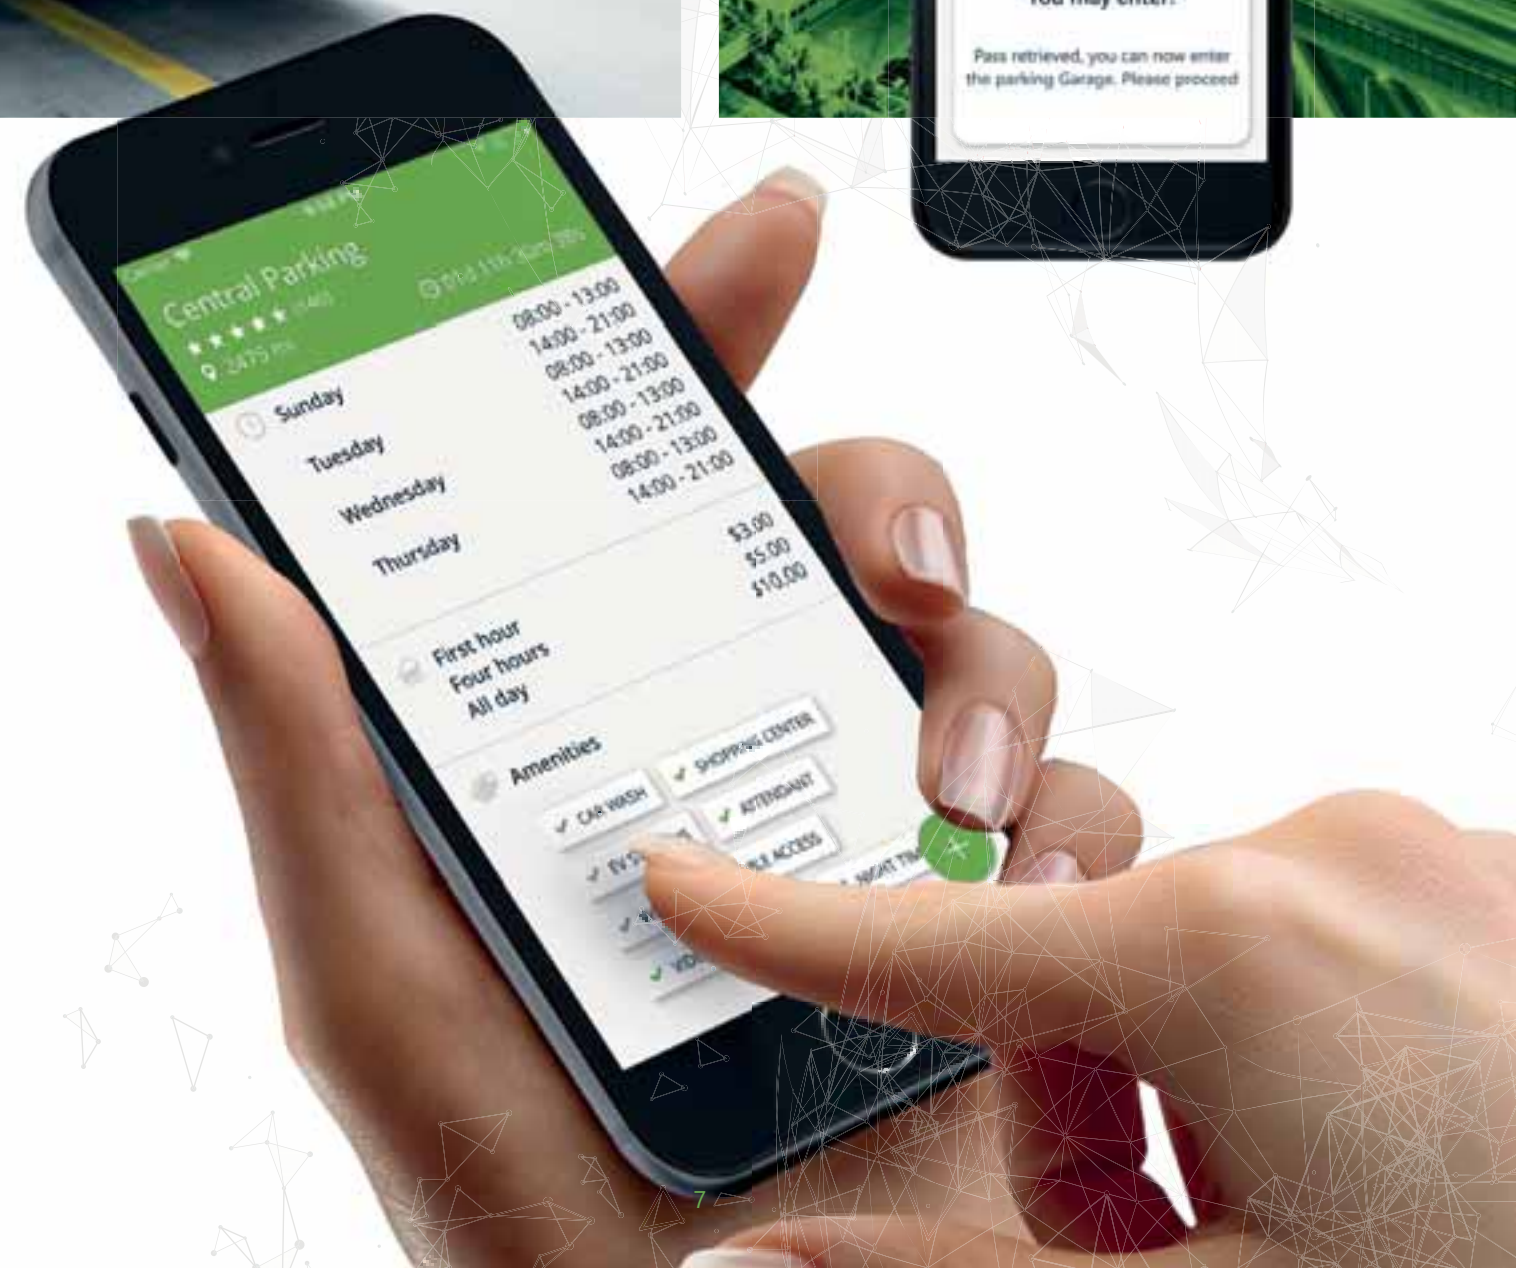

BENEFITS FOR PARKING OPERATORS

Optimizing performance and profitability for a parking area is a continuous journey. Make sure that you are well equipped with JPass!

- **Valuable business insights** about your customers (and transients) allow you to plan long-term business strategies and maximize potential profit
- **Enhanced occupancy management and predictability**, through visibility on bookings and inventory management, which enable more predictability, reduce operational costs and ultimately offer more convenience to end users.
- **Contract parking**: online sales of subscriptions allow saving time and resources. The end user can create a new contract in a few seconds at anytime and anywhere and the operator can set up thresholds and control the process, without having the operational hassle.
- **Digital ticketing**: less maintenance needed on the equipment, more environment-friendly, no cost for paper tickets.
- **White Label Version**: reinforce your own brand and build a stronger relationship with your customers with the power of JPass embedded in your company-branded app.
- **Reach clients** through notifications. Send discount vouchers to easily share promotions and special discounts with your customers and increase revenue.
- **Seamless**: JPass is integrated with the Janus Management System, allowing you to have total control and visibility, not only when customers use paper tickets, but also when they use their mobile phones to enter your parking facilities.
- **Optimized cost with a green side**: JPass allows saving on paper ticket and equipment maintenance costs, yielding a more environment-friendly parking experience.
