

## TL-60 TICKETLESS STATION

Spec Sheet

Going ticketless means no physical interaction with the entry station. The TL-60 revolutionizes parking entry with a fully ticketless design, minimizing operational costs and enhancing the user experience. With no need for a physical ticket printer, it offers a more compact size and lower footprint, making it ideal for modern parking assets aiming to streamline operations, reduce maintenance, and embrace a future-ready, eco-friendly parking solution.

### Sustainability

- Fully ticketless operation reduces paper waste, contributing to a greener environment
- Compact design lowers material usage and energy consumption during production
- Supports mobile and barcode credentials, reducing the need for physical cards and tickets

### Cost Effectiveness

- Eliminates the need for a physical ticket printer, lowering maintenance and operational costs
- Smaller size and footprint reduce installation and infrastructure costs
- Off-line operation capability minimizes downtime and associated costs
- Real-time monitoring reduces the need for on-site inspections and maintenance

### Additional Features:

- 7" high-resolution color touch screen display for clear driver instructions
- Supports various access methods: Mi-fare, AVI
- LPR Imaging support for enhanced security and access control
- Barcode Scanner compatible with multiple formats (1D & 2D, QR, PDF417) for flexible credential use
- Intercom with built-in VoIP for efficient communication
- Stainless steel construction for long-lasting durability
- Certified with UL 60950-1:2007, CAN/CSA-C22.2, and EMC regulations (CE, FCC Part 15, Subpart B, Class B) ensuring high safety and quality standards

## MEET TIBA X60...

+ Smarter and faster than ever with new product architecture.

+ Increased security to protect your data.

+ Connectivity using native TCP/IP and RS485.

+ Easy to install, service, and maintain.

## FEATURES

<b>Driver Instruction Display</b>	7" high-resolution color touch screen display
<b>Ticket Issuing</b>	Fully ticketless
<b>Card Holder Access</b>	Mi-fare, AVI (optional)
<b>LPR Imaging</b>	Supported
<b>Barcode Scanner</b>	Reads multiple barcode formats -1D and 2D, QR, PDF417, and more. Supports various barcode credentials.
<b>Heater and Thermostat</b>	Built-in (optional)
<b>Hotel Room Keys</b>	Supported, Mi-fare cards
<b>Intercom</b>	Supported, built-in VoIP

## OPERATIONS

<b>Processor</b>	High-speed embedded industrial processor
<b>Operating System</b>	O/S Less
<b>Communication and Network</b>	Native TCP/IP Ethernet, or RS-485 Communication
<b>Built-In Clock</b>	Lithium-ion battery
<b>Off-Line Operation</b>	Off-line functionality supported
<b>Remote Monitoring</b>	Real-time transaction and events monitoring via Facility Management System

## HOUSING

<b>Construction</b>	Stainless steel
<b>Measurements</b>	9.4" (24 cm)W; 5" (12.7 cm) D; 54.4" (138.1 cm)H
<b>Weight</b>	30 kg
<b>Color (Housing)</b>	White RAL 9003
<b>Faceplate</b>	Standard label
<b>Locks</b>	Corbin Cam

## ELECTRICAL

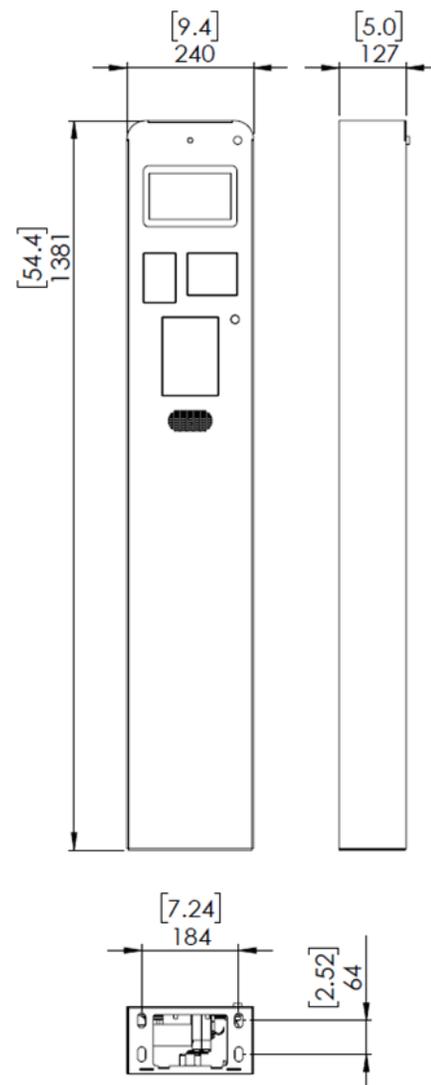

<b>Voltage</b>	100-240 VAC, 50-60 HZ
<b>Current</b>	6.5A approximate max. (with heater)
<b>Power Consumption</b>	640W (with heater)

## ENVIRONMENTAL CONDITIONS

<b>Operating Temperature</b>	-4° to 122°F (-20° to 50°C) with heater
<b>IP Rating</b>	54

## REGULATORY

<b>Safety</b>	UL 60950-1:2007 CAN/CSA-C22.2 No. 60950-1-07
<b>EMC</b>	CE, FCC Part 15, Sub part B, Class B

TIBA, a brand of FAAC Parking Solutions, offers an innovative parking management system, integrating advanced technology for seamless, efficient, and secure parking solutions tailored to diverse customer needs.
